**DELIVERY SERVICE** - ProLink Supply offers quick and convenient delivery service with our own fleet of trucks. Please check your local branch for their delivery schedule.

All deliveries are based on route, weather and truck weight limits. Days and deliveries are subject to change based on these factors. Delivery charges may apply.

(Special deliveries are a possibility, please call and inquire.)

### **DELIVERY AND SHIPPING POLICY**

#### **I) PRICING**

- Materials will be delivered at the prevailing price at time of order unless otherwise quoted.

#### **II) DELIVERY AND FREIGHT CHARGES**

- All orders are shipped freight collect or added to the invoice unless quoted as prepaid.

- All air shipments and orders requiring special handling will be shipped freight collect or added to the invoice.

#### **III) DAMAGE CLAIMS**

- Materials shipped from our warehouse are considered to be the property of the consignee. The responsibility to file a claim belongs to the customer should damage occur. All shipments should be inspected immediately upon arrival and notification of any damage made to the freight carrier.

- ProLink Supply is not responsible for any damage caused by the carrier.

## General Information

---

### IV) RETURN GOODS

- All returned goods are subject to a 20% restock charge.
- All materials must be returned at customer's expense.
- Any materials returned to our warehouse requires prior approval from our sales staff. Please call for a RMA (Return Materials Authorization) prior to returning the materials.
- No product will be accepted for return if:
  - the material is a custom order or custom size.
  - not in resalable condition.
  - material was purchased over 30 days prior to date of return.

### V) C.O.D. SHIPMENTS

- All C.O.D. shipments require payment by certified funds, cash or money order, unless other arrangements have been made with our credit department.
- Any C.O.D. shipment refused by the customer will place the account on cash-in-advance status.
- Paying by credit card may incur a 3% convenience fee.

### VI) WARRANTY

- ProLink Supply will replace any defective material only as warranted by the manufacturer.

### VII) LIMITATION OF CLAIMS

- There are no warranties except that material sold shall be merchantable quality and shall conform to manufacturer specifications. The **BUYER** assumes all risks whatsoever as to the result of the use of materials purchased, whether used singly or in combination with other materials or substances. No claim by **BUYER** of any kind shall be greater in amount than the purchase price of the materials in respect to which damages are claimed. In addition, the **SELLER** shall have no liability whatsoever of incidental, indirect or consequential damages (including, but not limited to, damages for injuries to persons or to property). Failure by **BUYER** to give **SELLER** written notice of claim within 30 days from date of delivery shall constitute a waiver by **BUYER** of all claims in respect to such materials. Any action for breach of this contract (other than for nonpayment of the purchase price) must be commenced within one year after the cause of action has occurred.

### PRODUCTS

- ProLink Supply maintains a complete stock of items in this catalog with the exception of items not normally used in everyday production. ProLink Supply strives to keep all items in stock; however, there are times where demand and manufacturing shortages may delay material fulfillment; these situations are beyond ProLink Supply's control and has no obligation to rush materials via air or priority services to fulfill backorder. Items listed in this catalog that are not normally stocked by ProLink Supply can be ordered from manufacturers' stock on a special order basis.

## General Information

### TERMS OF SALE

- All charges are due at time of delivery unless on approved credit. The terms for credit are **NET 30 days** unless other arrangements have been made with our credit department.

- All charges remaining unpaid by the end of the 2nd month following the month of purchase (30 days past due) will be subject to interest and service charges of 1-1/2% (annual simple interest rate of 18%) and will be subject to withdrawal of credit privileges.

- If any charges remain unpaid after 90 days, open account privileges will be withdrawn until the account is brought to a current status.

### **NO EXCEPTIONS TO THIS POLICY.**

- Any customer placed on C.O.D. status will be required to make satisfactory arrangements for payment of the old balance, as any account over 90 days past due will be placed for collections. We will be flexible in working out a note or other arrangements to clear the old balance.

- Extension of credit after current status has again been reached will be subject to a 30 day grace period with review and approval of the credit department.

- Unused Accounts: Any account that is inactive for a period of one year will be deleted from our system and will require submission of a new credit application to have account reinstated.

- Returned checks: All returned checks are subject to a \$50.00 service charge.

### TERMS OF SALE (CONT.)

- A 3% fee will apply to all account balances paid by credit card outside the terms of your account.

Our credit department periodically informs customers in a past due status of their standing in relation to the above credit policy.

**CREDIT POLICY** - ProLink Supply provides credit terms based on approved credit applications.

## How to Read Agricultural Fencing Specs

Use the following example to decode the specifications for all our Farm Fence, Game Fence, and Horse Fence.

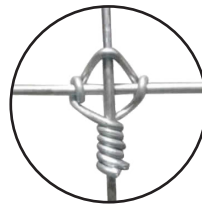

## Agricultural Fence Knots

### Hinge Joint Knot

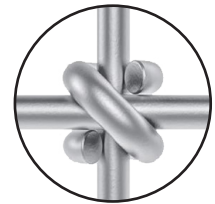

The Hinge Joint Knot is a flexible knot that conforms to the terrain and minimizes damage caused by livestock and weather

### Fixed Knot

The Fixed Knot is designed to hold the vertical stay wires in place and is durable and resistant to animal damage

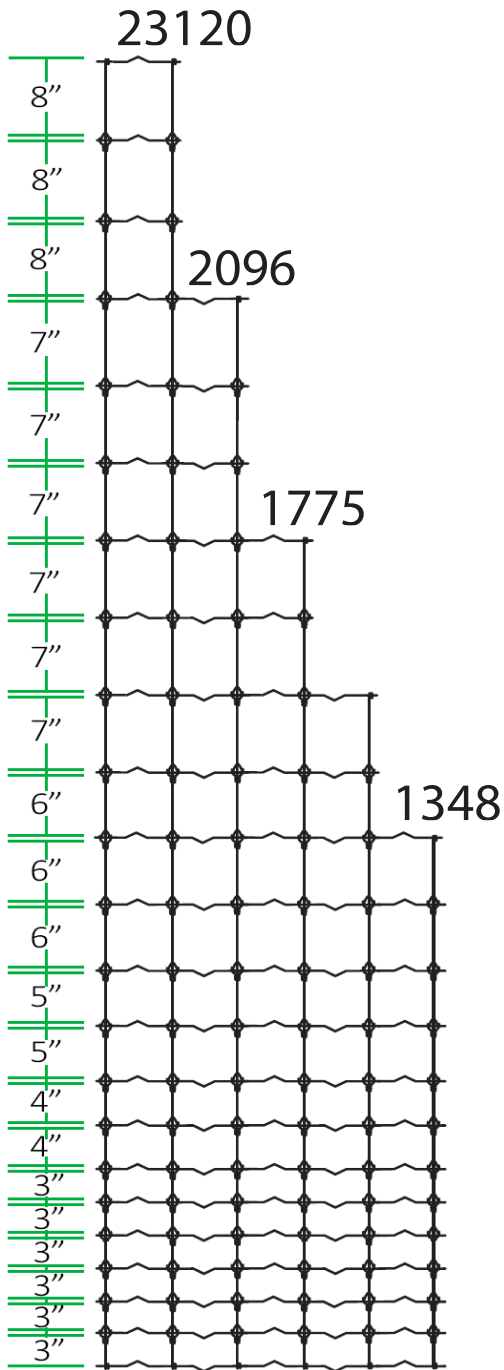

### Square Knot

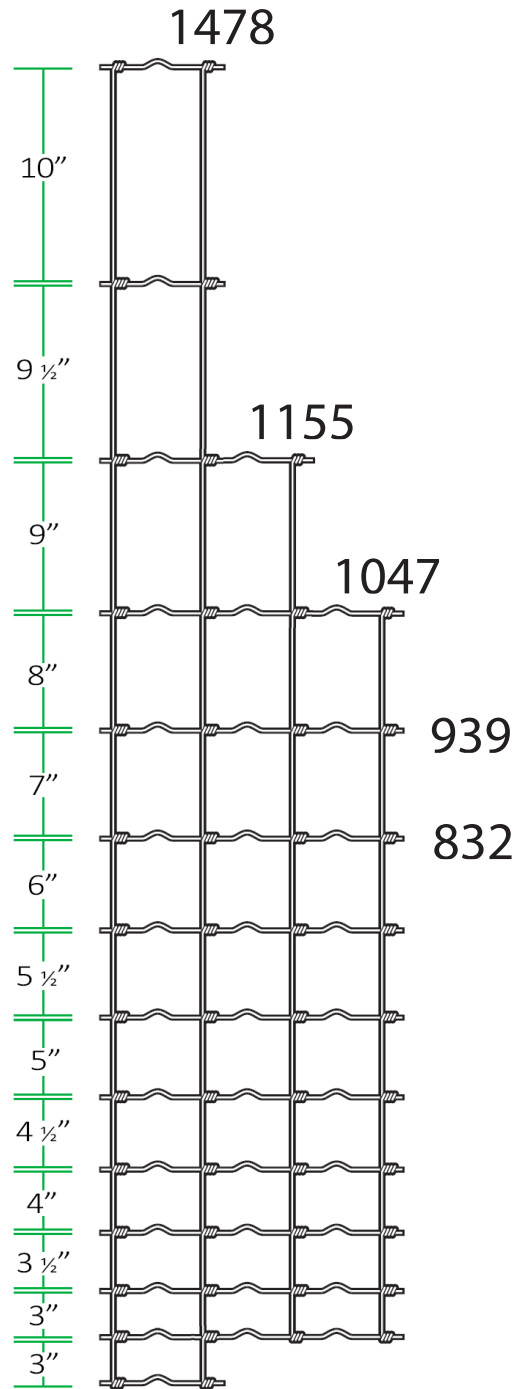

The Square Knot is ideal for the protection of livestock's skin and coats due to its smooth construction.

## Graduated Agricultural Specifications

### Game Fence - Fixed Knot

### Field Fence - Hinge Joint Knot

The ST400i drives 4mm diameter barbed post staples reliably and consistently, making fence construction more efficient, delivering productivity gains for farmers and fencing contractors. The advanced fuel injection system delivers optimal fuel dose every time, driving at a rate of 2 staples/second. The sequential trigger system provides accurate staple placement and improved operator safety so you can work with speed and confidence.

Fast reliable, and relatively effortless, the pneumatic Ringfast ringing tool produces fast, consistent rings, reducing manual effort and improving productivity. Designed with an ergonomic grip and balanced for comfortable operation, it comes fully equipped for use; just connect one of your hoses to the Ringfast tool and the other to the compressor.
